

Creating a POP account

**How to create a POP account?**

If you'd like to create a new POP account:

1. Log into Manager.
2. Click your domain name in the menu on the left (choose the domain for which you'd like to create an account)
3. Click "Emails" , and then "Create POP account"
4. You'll see the site:

- in "Email Address" field insert chosen name (without @)
- insert the password and confirm it in appropriate fields
- choose a Nic to manage this POP account (by default it's your nichandle)
- click "Accept" button

As a result of this operation you should receive the information:

The operation has been successful. The change will be taken into account in several minutes.
