

Geolocalisation for web hostings

OVH provides its clients who already have a web hosting **PLAN** type, the option to choose the Geolocation of the primary domain as well as Multidomains attached to this hosting through your Manager.

To do so:

- 1- Log in to your Manager
- 2- Then click on your domain in the left menu.
- 3- Click on the button 'Hosting'
- 4- Click on the button 'Geo localization'
- 5- Then, select a country of your choice from the dropdown list:

and you can choose between these IPs:

- British IP
- French IP
- German IP
- Polish IP
- Spanish IP
