

Specific procedure

Here is the specific procedure of your .org – .biz – .com – .net and .info domain transfer. After your order and the reception of your payment, you will receive a link by email. By clicking on this link, you will be redirected to a page of our website and your authentication code will be requested (AUTH_INFO). If you don't have this code, please go to this address to know the procedure to follow to obtain it according to your registrar.

AUTH_INFO code – Incoming transfer

If you enter a wrong code, you won't get any error message, your code will be taken into account, and your transfer request will be refused (by the REGISTRY).

You will have to relaunch your transfer request.

For your information

This new procedure is mandatory. It is a reliable warranty against the domains theft.
