

How to restore my Nichandle password?

Enter the logging page of Manager v3.

Then click the link [Forgot your password?](#) and use the first form:

You just need to insert your Nichandle and click "Restore the password".

In a few minutes you'll receive an email with a link. Click the link and on the page that will appear insert your nichandle and confirm it once more.

A new password will appear. Remember it!

If you'd like to change the computer generated password to more friendly one, please log in to Manager v3.

Then choose "My parameters" , and next click "Password" .

Insert your password twice and click "Accept".

After completing this operation you'll receive an information that your password has been activated.
