

How to restore my Nichandle ?

Enter the logging page of Manager v3.

Then click the link [Forgot your password?](#) and use the first form:

You just need to insert your email and click "Restore my nichandle".

In a few minutes you'll receive an email with a link. Click the link and on the page that will appear insert your email and confirm it once more.

Your nichandle will appear. Remember it!

If you don't have access to the email address assigned to your nichandle, you'll need to use the procedure "Change of email address for Nichandle", which is available on the website Procedures.

After completing this operation you'll receive confirmation that your password has been activated.
