

Modifications and orders for domain changes

For any modification about the information of a .fr or .be domain indicated in the whois of <http://afnic.fr> or <http://dns.be>, or if you wish to unlock your domain, which is in redemption period at OVH or somewhere else, you must contact the customer support by mail.

You may contact our customer support via the Manager, 'My services' section, , 'Contact our support' . Please have your information as shown below ready, that way the support will be able to deal with your request quicker.

Information to has to be changed

Please create a NIC handle, which will contain the new information that you want to give. Give this NIC Handle to the support and specify the domain name, and its primary and secondary DNS. If necessary, the support will send you an order.
